

MAGIS

Passe-partout by Magis

Design and

As its name suggests, Passe-partout is a table suitable for any space and occasion, as well as looking great with any chair from the Magis catalogue. Passe-partout offers solutions for all settings: from bars and restaurants to homes or offices.

There is a version with a stainless steel base and column, and small, round and squared HPL tops (in two different heights), particularly suitable for contract purposes, and another with four legs and rectangular sheet steel tops (available in three sizes), better-suited for dining rooms or meeting rooms.

PRODUCT CARE

We recommend using a soft rag, either dry or wet. When needed, use ph-balanced soap diluted in water. Do not use abrasive sponges as they may leave scratches. Immediately dry after washing with a soft rag or chamois leather. Never leave water or other liquids to stagnate on metal parts. Avoid using acidic products, solvents and products containing ammonia. Periodic maintenance and cleaning allows the products to keep their original look and lengthens the duration of their performance.

WARNING

Do not use different cleaning products from the ones mentioned above. Do not use the product in an improper way. Do not place hot objects on it, do not sit on the top or use it as a step-ladder. Once disused, please make sure that this product is disposed in an environment-friendly way.
